ProAccurate® Thin Tip Thermometer

-40° to +450°F/-40 to +230°C

Meeting the needs of today's commercial kitchens, CDN introduces the ProAccurate® Thin Tip Thermometer (DTT450). A super-accurate 1.5 mm thin tip measures the internal temperature of food with minimal impact, and a recalibration feature ensures the highest accuracy over time.

Like all thermometers under CDN's exclusive Quick-Read® banner, it provides accurate temperature readings in just 6 seconds. The DTT450 comes in Red (meat), Blue (seafood), Green (produce), and Yellow (poultry), according to the HACCP color coding system for promoting food-safety, and is manufactured with BioCote®, an antimicrobial agent.
