

▽ IN-COUNTER HORIZONTAL LID DISPENSERS

LID COMPATIBILITY : PRODUCT DISCLAIMER

LID-1 & LID-2 dispensers are not compatible with all lid types. This product is intended for use with flat slotted cold cup lids. Tightly nested or deeply extruded lids may not be compatible with this product. This product is not intended to be used with flat and contoured hot cup lids or dome lids. To verify lid compatibility please furnish a full sleeve of lids prior to ordering.

LID SERIES IN-COUNTER LID DISPENSERS

Unique lid dispensers offer a sanitary method for storing and dispensing many popular sizes of cold drink cup lids. These stylish and functional dispensers enhance the appearance of any food service operation. The unique dispenser design prevents excessive handling and contamination of lids.

These units are intended primarily for use with 8 oz. to 44 oz. flat cold drink cup lids. The quick-release mounting collar fully supports the dispenser in a horizontal mounting position; no additional support is necessary. Quality stainless steel construction combined with a no-jam design provide long term durability.
